highlighting achievements of young girls. A National Inspection and Monitoring Committee with members from National commission for Women, Department of women and Child Development, and reputed NGOs has been constituted to take stock of the situation at ground level by visiting clinics in States/UTs.

(c) The Pre-conception and Pre-natal Diagnostic Techniques (Prohibition of Sex Selection) Act, 1994 (PC & PNDT Act) was amended in 2003 and is being implemented in the country. At present, 308 court cases are filed in courts in various states and Union Territories. The clinics are inspected for violation of the Act and action to suspend the registration is taken by the Appropriate Authorities. One of the problems is that the activity of sex determination takes place secretly where both the service providers and service seekers are in league to defeat the provisions of the law.

Cancer and TB cases in India

610. SHRI S.S. AHLUWALIA: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) the number of persons effected with Tuberculosis (TB) and Cancer during the year 2000 and added thereto year-wise since then, State-wise;

(b) the details of the NGOs engaged in combating and rendering care to TB and Cancer patients, respectively;

(c) the funds allocated to them in last five years till the current year;

(d) whether any augmented measures are contemplated to eradicate TB and making treatment of Cancer affordable to the common man;

(e) if so, the details thereof; and

(f) if not, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI PANABAKA LAKSHMI): (a) A statement indicating State-wise details of TB patients detected and put on treatment under the Programme since year 2000 is given at Statement I. (*See* Below)

As per the National Cancer Registry Programme of ICMR, it is estimated that there are about 2.25 million cancer cases in India. At any

point of time, there are about 7-9 lakhs new cancer cases every year. The state-wise and year-wise data is not available.

(b) and (c) State-wise details of NGOs involved in the Revised National TB Control Programme (RNTCP) has been given in the statement at statement-II. (*See* Below)

Under the TB Control Programme, involvement of NGOs has been decentralized to the district level and no cash grant is given directly to NGOs from the Centre. Funds to NGOs are given by the concerned District TB Society. A Statement indicating State-wise information on the amount released to the NGOs during the years 2000-01, 2001-02, 2002-03, 2003-04 and 2004-05 as reported by the State Societities is given at Statement III. (*See* Below) Many NGOs also participate without any assistance. However, under the Global Funds for AIDS, TB and Malaria (GFATM) assisted RNTCP project, for establishment of Urban DOTS Centres, funds are released directly from the Centre to the NGOs detail of which are at Statement-IV. (*See* Below)

The details of NGOs assisted financially under National Cancer Control Programme for Health Education and cancer detection activities in last five years is annexed at Statement-V. (*See* Below)

(d) to (f) Revised National TB Control Programme (RNTCP), widely known as DOTS, which is a WHO recommended strategy, with the objective of achieving cure rate of 85% of new sputum positive cases and to detect at least 70% of such cases, is being implemented since year 1997 in a phased manner. To make the programme more accessible to larger segments of the population, and to supplement the Government efforts in this direction, emphasis is being given to also involve medical colleges, all general hospitals, private practitioners and NGOs in the programme. It is envisaged to cover the entire country under the Revised Strategy during the current year (2005). Under the programme treatment is given free of cost.

Following improvements have been made in the Revised National Cancer Control Programme since 1.1.2005.

(i) Cobalt Unit Scheme has been discontinued. (ii) Financial assistance under the Oncology Wing Scheme has been enhanced from Rs. 2 crores to 3 crores. (iii) Unlimited funding of the Regional Cancer Centres (RCCs) has been discontinued. (iv) District Cancer Control

Programme has been revised with more focus on prevention, early detection etc. (v) The NGO Scheme for cancer awareness, prevention etc. is proposed to be decentralized and entrusted to the RCC/ Government Medical Colleges as nodal agencies. (vi) New components of IEC and research has been introduced.

Statement-I

State-wise detail of TB cases detected and put on treatment under the Programme since year 2000
